# The Challenge

Tire Boss, a high-volume tire shop, faced a critical challenge: missed customer calls. With an influx of daily inquiries regarding pricing, availability, and tire services, the staff struggled to keep up with the demand. This situation **led to wasted ad spend and compromised the quality of customer experience** they aimed to provide.

**20+** calls per day went unanswered

Potential leads were lost due to delayed responses

Customer trust and loyalty were affected, creating a gap between demand and service

Missed calls often meant missed sales opportunities, which had a direct impact on revenue. Tire Boss needed an efficient solution to address these lost opportunities and ensure they remained competitive in a crowded market.

# THE SOLUTION

*To tackle the problem,*

we **designed and implemented an Automated Callback System** using advanced automation workflows.

1. **Capturing Missed Call Details**
2. **Immediate Follow-Up with SMS**
3. **Automated Callback**
4. **Internal Team Notifications**
5. **Reporting and Analytics**

## Key Features of the Solution:

- **Missed Call Text Back:** Enabled via automation workflows.
- **Custom Workflow Logic:** Automated follow-ups with personalization to keep customers engaged.
- **Business Hours Filtering:** Separate workflows for handling missed calls during and after business hours.
- **CRM Integration:** Seamless lead logging and tagging for better pipeline management.

## THE RESULTS

The implementation of the Automated Callback System ***delivered*** transformative results for Tire Boss

97%

*Reduction in Time-to-  
First Contact*

30%

*Increase in Sales*

## Enhanced Customer Experience

Customers felt valued and appreciated **due to quick callbacks and personalized communication**, improving trust and loyalty.
